

James Hardie® ColorPlus® Availability for HardieZone™ Products

James Hardie® siding products with ColorPlus® Technology allows for multiple color combinations that expand your design options. For HZ5™ environments, ColorPlus® Technology offers maximum durability and resistance to exposure to freezing climates and moisture contact. In HZ10™ board environments, the specially formulated paint stands up to UV levels in a way few field-applied paints can, offering up to 30% more fade resistance.*
